

EQUINOX CUMMERBUND

13103

FEATURES

- Rigid First Spear Tubes Attachment (1)
- A strong, low-profile interface
- MOLLE/PALS on both sides (2)
- Inner portion is lined with loop (3)
- Shock Cord mounting solution (4)
- Can be used with a Spiritus Systems LV-119 (5)

DESIGN

The Equinox Cummerbund is a rigid, lightweight cummerbund with a captured FirstSpear® Tubes™ attachment. The captured Tubes™ release mechanism allows the cummerbund to have the strength and load bearing of a rigid, structural cummerbund with the speed of doffing and donning of the tubes system.
