

SANDWICH BAG

14104

FEATURES

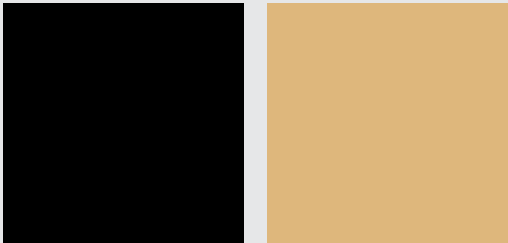

- Adds an admin pouch behind placards (1)
- 6” wide x 6.25” tall (External Dimensions)

DESIGN

The Sandwich Bag is a near-universal, low-profile solution to add admin pouch capability behind industry-standard SwiftClip and G-Hook placards. It is designed to give users access to the contents while not inhibiting rifle magazines or EUDs mounted above. The Sandwich Bag attaches between the two side release buckles used on carriers and placard adapters. When empty, it adds no additional bulk to the front of your carrier.
